LEGISLATIVE WORK AT WASHINCTON

HOUSE DISCUSSES IMMIGRATION PROBLEM.

Two Days Debate On this Important Question Begun Tuesday—District of Columbia Bill Passed, Carrying $7,300,000—Gen ral News of the National Capital.

Washington, May 20.—The house Tuesday entered upon a two days' debate of the immigration bills reported from the immigration committee. W. A. Stone of Pennsylvania and Mr. Tracewell of Indiana argued for a restrictive measure, Mr. Corliss of Michigan for his bill designed to put an end to Canadian competition with American labor, and Mr. Morse of Massachusetts and Mr. Bartholdt of Missouri for the educational test bill. The feature of the debate was the plea of Mr. Buck of Louisiana against any sort of restrictive legislation beyond that now on the statute books, which excluded paupers and criminals.

The debate on the immigration bills was opened by Mr. Bartholdt (rep.) of Missouri, chairman of the immigration committee. An educational test, he pointed out, would not materially affect immigration from Great Britain, Germany and other countries of northern Europe. He warned his republican associates that as the advocates of the educational test for immigration they could go to the country, but consular inspection that would cut off all immigration save the most undesirable sort from Germany and Scandinavia could never be successfully defended.

W. A. Stone (rep.) of Pennsylvania, the author of the Stone bill, explained its provisions and advocated its passage. The country, he argued, had long suffered from unreasonable immigration. In places in his own state there were localities where the English language was not spoken and where English newspapers were not read. The laws were neither understood nor respected.

Mr. Corliss (rep.) of Michigan submitted an argument in favor of his bill for the exclusion of foreigners who crossed the frontiers each year to compete with American labor. He read the testimony of inspection agents and others along the Canadian border as to the evil effects of the annual influx of the Canadian "birds of passage."

Mr. Morse (rep.) of Massachusetts favored the McCall bill. He said that there was a strong demand in the country for radical legislation to restrict immigration and that congress could not afford to disregard it.

Mr. Buck (dem.) of Louisiana, a naturalized German, opposed the restriction of immigration. The American republic was founded on a spirit of the broadest humanity. America for the world, as Washington and Jefferson taught, was what he wanted. America was big enough to take all who would come. The educational test it was proposed to impose was an insidiuos proposition.

IN THE SENATE.

District of Columbia Appropriation Bill Passed—Carries $7,300,000.

Washington, May 20.—The senate Tuesday passed the District of Columbia appropriation bill, carrying approximately $7,300,000. A debate on the question of appropriations for sectarian purposes cropped out on the paragraph making apropriations for charities in the district. On a vote the senate sustained the committee in providing specific appropriations for numerous private charitable institutions, some of them of a sectarian character. A further provision was adopted for an investigation into the charity system of the district, with a view to ascertaining what, if any, part of the public appropriations are used for church purposes.

Petitions for One Cent Postage.

Washington, May 20.—Members of the Illinois congressional delegation on both sides of the capitol have received petitions favoring a reduction of letter postage to one cent an ounce and amendments to the postal laws in regard to second class mail matter. These petitions are not confined to Illinois, but are pouring in from all parts of the country.

No Hope for an Agreement Soon.

Washington, May 20.—It is likely nothing will be accomplished this week in the way of an agreement between the house and senate conferees regarding the battleships and other items of disagreement in the naval appropriation bill.

STORM REPORT NOT VERIFIED.

Difficult to Obtain News from the Otoe Indian Reservation.

Falls City, Neb., May 20.—All efforts to ascertain the extent of the cyclone damage in the Otoe reservation have been unavailing. The report of forty killed and many injured cannot be verified. News travels slowly on the reservation under favorable circumstances, and with all forms of communication rendered difficult by reason of high water, bad roads and wrecked wires, it is exceptionally difficult to verify the present rumor. Citizens of this county held a mass-meeting here and appointed a committee to procure funds for the cyclone victims of this immediate locality. Several hundred dollars were contributed.

SILVER SUPREME IN IOWA.

Democratic State Convention Will Declare for the White Metal.

Dubuque, Iowa, May 20.—The democratic state convention met here at 10 o'clock this morning. The state central committee last night decided upon S. W. Wright of Tipton for temporary chairman but the silver men are talking of a change on account of objectionable feaures of his intended speech. Should they refuse to indorse the committee's choice, E. M. Carr of Manchester is likely to be selected, and he also may be made permanent chairman. The resolutions will be uncompromisingly for free silver at 16 to 1 and for Boies for president. The gold-standard delegates held a conference and practically gave up the fight, though many favored a bolt. Gov. Boies will probably name the man who is likely to be chairman, Judge Van Wagenen, Sioux City, or Michael Healey, Fort Dodge. The figures given out to-night as showing the relative strength of factions in convention are: Silver, 663; gold standard, 257. There are only three contesting delegations and they are from Woodbury, Blackhawk and Linn counties. It is probable that a compromise may be reached so that all will be seated.

URUAN INCIDENT NOT CLOSED.

Negotiations to Settle the Dispute Are Still Pending.

Washington, May 20.—Notwithstanding reports from Caracas to the contrary, it can be stated that the Uruan incident has not yet been closed, and that no indemnity has yet been paid by Venezuela to Great Britain. Negotiations are proceeding, however, through the German minister at the Venezuelan capital, but so far it has not been possible to arrange the terms of the indemnity. The difficulty appears to lie, not in the refusal of Venezuela to pay an indemnity, but in the avoidance of a recognition in the payment of all language that by any possibility might be construed into an admission of British title to the Uruan country where the incident happened.

MEETS AT SAVANNAH.

Supreme Council of the Royal Arcanum Opened There Today.

Savannah, Ga., May 20.—The Supreme council of the Royal Arcanum met in this city today, and will be in session ten days. John E. Pound, supreme regent, reports a membership of 174,000 on December 31, 1895, an increase of 14,753 during last year. During the year there was paid into the widows' and orphans' benevolent fund $4,204,007.88, and the payments therefrom amounted to $4,197,446.12. The receipts on account of the general fund were $123.812.75; payments, $119,795.23, of which $5,517.50 was for the purchase of City of Chicago 4 per cent gold bonds for investment. Fifteen assessments for the widows' and orphans' benevolent fund have been so laid that there is money on hand to pay each claim as soon as it is proved. The real estate owned by the corporation is valued at $59,170.97. The net expenses for the order were $298,034.18. Eighty-six new councils were instituted in the grand council jurisdiction and twenty-two in the states under supreme council jurisdiction. Of the widows' and orphans' benevolent fund the receipts, including the balance on hand, amount to $2,244,002.79, and the payments of death claims were $1,637,178.82. The current cash balance April 30 was $570,823.97; held for delayed claims, $36,000; number of subordinate councils April 30, 1,698; grand councils, 21; total membership, as carefully estimated, 182,106.

Illinois Doctors at Ottawa.

Ottawa, Ill., May 20.—The Illinois State Medical society opened the first day's session of its forty-sixth annual meeting in the First Baptist church in this city Tuesday morning with a very large attendance of physicians from all parts of the state, distributed between Chicago and Cairo. As a matter of miscellaneous business the society took up the subject of next year's meeting, resolving, if possible, to meet one day of the convention with the Missouri State Medical society on a steamboat in the Mississippi river. The plan is that the society shall meet in East St. Louis and the Missouri society in St. Louis, each holding a session of two days before the steamboat meeting. A committee was appointed to arrange the matter.

Illinois Congregationalists Meet.

Aurora, Ill., May 20.—Congregational ministers and delegates to the fifty-third annual meeting of the General Congregational Association of Illinois organized Tuesday morning by choosing Rev. C. A. Blanchard, president of Wheaton college, as moderator. Dr. Fairbanks, of Waverly, was elected register in the place of Dr. Whittlesey, deceased, of Chicago, who had held the office twenty years. The evening meeting was given to a discussion of the question of what changes are needed in modern revival methods.

She Thinks Well of the Turk.

Washington, May 20.—Secretary Olney has received a letter from Miss Clara Barton, in which, referring to rumors that she was prohibited from distributing relief in Asia Minor, except under direction and control of the Turkish authorities, and from lists of persons furnished by Turkish officials, she emphatically denies that any members or officials of the Turkish government have ever tried in any way to direct or control her distributions.

DEADLOCK BROKEN BY THE ELECTION

PROCEEDINGS AT THE METHODIST CONFERENCE.

Drs. C. C. McCabe and Earl Cranston Honored By Their Brother Ministers—Result Reached On Fifteenth and Sixteenth Ballots—The Vote In Detail.

Cleveland, May 20.—After a long and hard battle by the friends of the less-favored candidates the deadlock over the election of the two bishops was broken at the Methodist general conference Tuesday and the honors were bestowed on Drs. C. C. McCabe and Earl Cranston. The former won on the fifteenth ballot with a plurality of eight. Another ballot was taken and Dr. Cranston came to the top of the list with a plurality of thirty. Both results were greeted with the wildest cheering and calls for the successful candidates. The delegates then settled down to complete the business of the conference, feeling glad that all the electioneering was over.

It was evident at the beginning of the day's session that the delegates were getting tired of continual caucusing and electioneering. The end was drawing near, but some expected it would prove the disappointment of the stronger candidates. The Rev. R. D. Munger, of New York, rose to protest against electioneering for certain candidates, but half a dozen delegates wanted to inform him that combinations were unknown in the conference. The Rev. C. D. Hills, of New Hampshire, wanted the five highest candidates on the fourteenth ballot voted for only, but this substitute motion was lost. A large majority voted against the motion to postpone. An attempt was made to have the vote reconsidered by which the conference decided to elect two instead of three bishops, but it was defeated.

The fourteenth ballot was taken and 504 votes were cast. Under the two-thirds rule 336 votes were needed by the successful candidates. Dr. Cranston headed the poll, with 261 votes, Dr. McCabe being next with 258. The supporters of other candidates had begun to secede and had thrown their votes to these two.

On the fifteenth ballot Dr. McCabe received 334 votes out of 504 cast and was elected. The vote on the other candidates was: Cranston, 328; Buttz, 112; Hamilton, 109; Neely, 50; Bowen, 30; Scattering, 35.

Wild cheers followed the announcement of the result, and Dr. McCabe was called for by his enthusiastic supporters. He begged to be excused from saying anything, and only bowed his thanks for the demonstration.

Those candidates receiving less than nine votes were not reported on, and the sixteenth ballot was taken. Dr. Cranston received 366 votes, eighty-two being cast for Buttz, thirty-six for Hamilton, ten for Neely and ten scattering. Another demonstration greeted Dr. Cranston as the result became known.

On the ballot for two agents of the New York Book Concern, Dr. Homer Eaton was unanimously re-elected. The conference then adjourned. Both of the bishops elected are natives of the buckeye state, and six of the sixteen bishops now on the board were born in Ohio. They are Stephen M. Merrill, John M. Walden, Isaac W. Joyce, Charles C. McCabe, Earl Cranston and John M. Thoburn. Bishop Foster, who was retired, was also an Ohio man.

Minnesota City Submerged.

Crookston, Minn., May 20.—The entire south portion of the city is submerged. That portion of the city in which were fifty families, mostly of the laboring class, is under a foot of water. But few removed their household goods, and everything stands in deep water, which is up to the second story. The bridges still hold, but it is impossible to communicate with the south side of the river except by boat. The losses to buildings will be largely among the poorer classes and will be felt keenly. The greatest individual loss probably will be to the North Dakota Milling association. Fifteen thousand bushels of wheat are stored in the elevator, and the water stands four feet deep above the floor.

Dr. Fraker May Escape Trial.

Richmond, Mo., May 20.—The celebrated Fraker case reached an abrupt end Tuesday morning so far as the present term of the Ray circuit court is concerned. As soon as the case was called on Monday the attorney for the defendant entered a motion to quash the indictments. Without leaving his bench, Judge Broaddus sustained the motion in the first and third counts of the first indictment and took others under advisement. Tuesday he sustained the motion to quash counts two, four and five of the first indictment. The state immediately took an appeal to the supreme court.

Spain to Buy New Cruisers.

Havana, May 20.—La Discusion, in a Madrid cable message, says the Spanish government is in negotiation with Italy to purchase two big cruisers for 38,000,000 pesetas. The Spanish press hints that an entente is being effected among Russia, France and Spain to check any attempt of Americans to intervene in Cuban affairs.

THE CZAR RECEIVES WITH HIGH HONORS

RUSSIA'S RULER GREETS HIS GUESTS AT MOSCOW.

Duke and Duchess of Connaught Arrive to Represent Queen Victoria—Potentates From the Orient Receive Effusive Welcomes From Russia's Emperor at the Celebration.

Moscow, May 20.—The duke and duchess of Connaught, representing Queen Victoria at the coronation ceremonies, arrived here at noon Tuesday and were accorded a brilliant reception. They were met at the railroad station by the Grand Duke and Grand Duchess Vladimir and a guard of honor. A band played "God Save the Queen."

The grand duke and grand duchess of Hesse, Prince and Princess Louise of Battenberg, the hereditary grand duke of Baden, the crown prince of Denmark and Prince Sudanaru of Japan arrived during the day and were received at the railroad station by members of the imperial family and guards of honor, accompanied by bands of music.

An especially grand reception has been accorded to the emir of Bokhara, who has been received in private audience by the czar at the Petrovsky palace. The other members of the Bokharan mission were then received officially in the audience hall. The khan of Kiva was accorded a similar reception.

Admiral Selfridge of the United States navy and party arrived here Tuesday. There was no official reception accorded them but they were met at the station by H. H. D. Peirce, secretary of the United States legation and by Lieut.-Commander R. P. Rogers, the naval attache of the legation.

Talk of Fusion in Indiana.

Indianapolis, Ind., May 20.—The movement toward a fusion of the populists and democrats in Indiana is declared to be progressing rapidly, and there is much talk of general fusion upon the whole ticket. The basis of the fusion is said to be free silver, and the democratic politicians have gone so far as to receive assurances from populist leaders that in case they adopt a 16 to 1 free-coinage plank and nominate a soft-money man, either Shanklin or Shively, the populists will either hold no convention or, holding one, will indorse the democratic ticket and platform. Governor Matthews seems favorably inclined toward the scheme, and has opened correspondence with some of the populists.

Panic in House of Representatives.

Washington, May 20.—A severe rain and wind storm which swept over Washington about 12:30 o'clock Tuesday created something like a momentary panic in the house of representatives. The storm was signaled by a blinding flash of lightning, accompanied by a fierce clap of thunder. It seemed that the capitol must have been struck, and most of the members in the house rushed to the lobbies to see if any damage had been done. There was also a rush from the galleries by frightened visitors, and for five minutes business was practically suspended in the house.

Wind and Hail Storm in Missouri.

St. Louis, Mo., May 20.—A heavy rain, wind and hail storm passed over central Missouri Tuesday afternoon, doing a great amount of damage to buildings, trees and crops. Incoming trainmen report all rivers overflowing and great danger of washouts. Dispatches from Illinois points indicate floods in the valley regions. Crops in the low lands are under water and will be a total loss. At some places railroad property has been washed away and the swollen streams are endangering bridges. Damage by lightning is reported from a number of points.

Indiana Whitecaps on Trial.

Anderson, Ind., May 20.—The Herron-Richardson-Scatterfield whitecap case was opened Tuesday. It is claimed that Richardson is the leader of the notorious gang. Farmers are flocking to the city and the keenest interest is manifest. The Scatterfield whitecap gang has for years been the most notorious band of the kind in this part of the country. Three months ago two were sentenced to six years each. Prosecutor Scanlan refused to prosecute the case and was deposed.

Fifteen Years for Reformers.

London, May 20.—A dispatch to the Times from Pretoria, Transvaal, dated May 18 (Monday), says: "The executive council decided that the punishment of Col. Francis Rhodes, Lionel Phillips, George Farrar and John Hays Hammond, the leaders of the reformers who were sentenced to death, shall be fifteen years' imprisonment. The hope is entertained that these sentences will be modified. The decision of the sentences of the other reformers is still awaited."

Ruined by Chicago Board of Trade.

Edwardsburg, Mich., May 20.—The Citizens' Bank closed Monday. At a meeting of the stockholders the cashier, J. L. Kleckner, acknowledged he had spent over $6,000 of the bank's money on the Chicago Board of Trade, as well as $16,000 of his own money. He gave his note with security for the amount and will not be prosecuted. The bank will resume operations.

TWENTY-EIGHT KILLED.

Property Loss by the Kansas Cyclone Foots Up $1.000,000.

Kansas City, Mo., May 20.—Twenty-eight killed outright, fifty or more injured, some of them fatally, and a property loss aggregating about $1,000,000 is now given as the estimated damage done by Sunday's cyclone in Marshall, Nemaha and Brown counties, Kansas. Further reports may increase these figures, as telegraph communication with the stricken points is still imperfect and consternation prevails. The dead are distributed as follows: Seneca and neighborhood, 8; Oneida, 6; Reserve, 5; Sabetha, 5; Morrill, 4. The property loss is distribuated about as follows:

Seneca, $350,000; Frankfort, $310,000; Reserve, $60,000; Sabetha, $50,000; Morrill, $20,000. Thousands of dollars of damage was done in the country between these towns. Although the pecuniary loss at Frankfort was great, not a life was lost there. Destitution and destruction meet the eye at every turn and the stricken country is bowed down with misery and woe. Many were rendered absolutely penniless. But few of the victims carried cyclone insurance and many escaped with only the clothes they wore.

At Seneca, where the damage was heaviest, the havoc was most complete. Everywhere the citizens have organized and are doing everything possible for the sufferers. Appeals for outside aid have been issued.

FOR GENERAL ASSEMBLY.

Presbyterian Commissioners Gather in Force at Saratoga.

Saratoga, N. Y., May 20.—While the General Assembly of the Presbyterian Church in the United States does not formally convene till Thursday a large number of commissioners from all parts of the country have already arrived. Among the principal ones named as the probable sucesscor of the retiring moderator, the Rev. Dr. Robert Russell Booth, the pastor of the Rutgers Riverside church, New York city, are the Rev. Dr. John L. Withrow of Chicago, the Rev. David R. Breed of Pittsburg, Pa., the Rev. Dr. Thomas L. Sextow of Howard, Neb., and the Rev. Dr. Francis C. Montfort of Cincinnati, Ohio. The vote will be an interesting one, and lines are sure to be closely drawn.

It is reported that the Board of Home Missions will, when its report is presented to the General Assembly, show an indebtedneshs of between $200,000 and $300,000.

The Missionary Conference Auxiliary to and conducted in connection with the General Assembly began in the First Presbyterian church this afternoon.

One Killed and Six Injured.

Toledo, Ohio, May 20.—One man was killed and six were injured by a singular accident on a Lake Shore fast freight Tuesday. The train was going westward, at the edge of the city, when the air hose broke near the middle of the train, setting the brakes on the front half of the train. The rear portion went forward with such terrific force that one empty stock car was doubled together as if it had been a paper box. In the car were seven tramps stealing a ride, all of whom were badly hurt, and a little negro, who escaped uninjured.

Fire on the Battleship Indiana.

New York, May 20.—Fire broke out Tuesday in the coal bunker of the United States battleship Indiana. Right next to the fire was the magazine for the eight-inch guns, stored with powder enough to blow the great battleship out of the water and wreck half the navy yard beside. The magazine grew hot, while the men worked, and the walls nearest to the fire plainly showed the effects of the heat. The ammunition was removed before the danger point was really reached, but the incident caused no little excitement.

South Dakota to Speak Today.

Aberdeen, S. D., May 20.—The democratic state convention to-day will be one of the largest yet held in this state. Efforts are being made to keep the money question out of sight, but this cannot well be done, as silver has a good many rampant supporters, who are determined to be heard.

Senator Quay to Visit McKinley.

Washington, May 20.—Senator Quay created a small sensation by announcing that he might go to Canton to have a conference with Major McKinley. There were all sorts of rumors current in a few minutes as to the meaning of this move, but the senator refused to discuss the question.

Want E. V. Debs for President.

Springfield, Ohio, May 20.—The third annual convention of the Allied Printing Crafts union of Ohio is in session here. A resolution was adopted recommending workers to declare themselves in favor of Eugene V. Debs for president of the United States, and deeming it proper to enter upon an aggressive campaign upon this basis.

Sunday School Workers at Peoria.

Peoria, Ill., May 20.—The twenty-second annual convention of the Illinois Christian Sunday School Association opened Tuesday afternoon in the Christian church in this city. The programme for the session includes addresses, papers and reports of officers.

TWO NEW SUSPECTS LOCKED IN JAIL

NET TIGHTENING ABOUT THE WALDO WRECKERS.

Sheriff Arrests Two More Men This Morning and It Is Said That Others Will Soon Be Apprehended—College Student Is Brutally Beaten.

Sheboygan, Wis., May 20—[Special].—The net is tightening about the perpetrators of the wreck at Waldo, Wis., in which three men lost their lives. Two more men who are suspected of complicity in the matter were arrested by the sheriff this morning and are now in jail. It is thought that other arrests will be made soon.

Appleton Student Beaten

Appleton, Wis., May 20—[Special]—John J. Schenck, a student in Lawrence University, was assaulted while on his way home last night, by three masked students and terribly beaten. His cries for help attracted a resident and the men escaped, but not until two were recognized. An investigation will be made by the faculty and the offenders punished.

Killed By a Train.

Manitowoc, Wis., May 20—[Special]—Edward Edgar was struck by a passenger train this morning and killed instantly.

Store Seized For Tax.

Black River Falls, Wis., May 20—[Speicial].—A. F. Werner, a prominent tobacco merchant, today had his stock seized by United States Revenue Collector Welles, on the charge of disposing of stock without payment of internal revenue tax.

Wisconsin Veterans Gather.

Racine, Wis., May 20.—The thirteenth annual department encampment of the Wisconsin Grand Army of the Republic commenced in this city today for a two-days' session, and the city has put on holiday attire to greet the veterans. The advance guard began to arrive Tuesday morning, and as the day advanced crowds of old soldiers and their friends put in an appearance on every incoming train. The encampment will be the largest in the history of the state organization.

Dr. Lloyd Jones of Stevens Point is the only avowed candidate for department comander, although the friends of Senator Charles H. Baxter of Lancaster, are urging him for the position. It is understood, however, that Senator Baxter does not desire to contest the honor with Mr. Jones. The Woman's Relief corps wil lalso hold its annual encampment, as will the ladies of the grand armies.

Banker Day is Free.

Milwaukee, Wis., May 20.—It has leaked out that an order discharging F. T. Day, ex-president of the Plankinton Bank, from custody has been entered. The order, which consists of but a few lines, was filed quietly several weeks ago by Judge Goodland. At the time the jury found Mr. Day not guilty on the count on which District Attorney Brazee chose to try him, Mr. Brazee objected to his being discharged, for the reason, as he stated, that he desired to try him on the other count of the indictment. Mr. Day's attorneys insisted that their client had a right to go free, as the district attorney had selected which count he would go to trial on, and, having been cleared by the jury, Mr. Day was entitled to a discharge. In the same connection it is said the cases of the Plankinton Bank will expire by limitation June 1.

Baptists Discuss Home Missions.

Asbury Park, N. J., May 20.—The sessions of the Woman's Home Baptist Mission society continued Tuesday in the First Baptist church at this place. Among the subjects discussed were: "Home missions versus state and city missions" and "Local charities and general benevolence." The afternoon session was a joint meeting of the Women's Baptist Mission society of Chicago and the Women's American Baptist Mission society of Boston. At the afternoon session Mrs. H. H. Ames recited the anniversary ode. There was a big meeting to-night in the auditorium, under the auspices of the same societies, and after the meeting an informal reception was held.

Postpone Woman Question.

Kansas City, Mo., May 19.—The woman question took up the principal part of Tuesday's session of the Methodist Protestant conference. The committee on certificates reported favoring the seating of all delegates who are enrolled as members, which, of course, included the women, the committee holding that they were constitutionally elected. After a somewhat bitter debate a motion to refer the matter to the judiciary committee was finally carried ,and adjournment until tomorrow taken. The corner stone of the new Kansas City University was laid this afternoon.

German Catholic Union Session Closed.

Joliet, Ill., May 20.—The state convention of the German Catholic union came to a close Tuesday night after a three days' profitable and pleasant session. Marcus Krakar of this city, was honored with re-election as president of the state union. Other officers were also elected.

ONE YEAR S WORK IN THE COUNTY

Figures Gathered From the Official State Census Report.

CROPS GROWN, VALUE OF IMPLEMENTS, ETC.

Statistics Relating to Both Agricultural and Manufacturing Industries Throughout Old Rock—The Horses, Cattle, Sheep and Hogs—Number of Men Employed at All Callings—Comparison of Janesville and Beloit—County's Population In Detail.

Some interesting figures are found in the report of the state census, recently taken, which has been issued by Secretary of State Casson, to whom The Gazette is indebted for a copy. The following figures have been compiled therefrom, and relate to Rock county at large when not otherwise designated. All figures are for articles raised or produced for sale, and do not cover those used by the raiser or producer. Thus the statement that in certain towns and cities no potatoes, for instance were raised should not be taken literally, as it means that none were raised for the market.

The statistics as set forth in the report give the number of men employed on farms (hired men) as 1,700 to whom was paid in wages $310,579. The value of agricultural produce was $5,589,268.

Value of Land.

There are 351,753 acres of improved farm land in Rock county; 43,754 acres of woodland, and 15,695 acres of unimproved land. The land is valued at $19,625,967.

The agricultural implements necessary to work it are worth $354,394.

The farms number 4,057.

The agricultural produce of the county was valued at $5,859,268.

Manufactured products were worth $3,395,966.

The Crops Raised.

The crops raised and their value are classified in the following table:

FIGURES ON CROPS.

The Dairy Interests.

The dairy interests of Rock county are valuable. Twelve cheese factories are valued at $16,700, while twenty-seven creameries are worth $68,525. Cheese was only made in the five townships as follows:

Town.	Pounds.	Value.
Lima	92,438	$6,616
Spring Valley	70,060	6,500
Johnstown	51,700	4,130
Newark	56,650	4,110
Milton	18,900	1,890

The county at large produced dairy products as follows:

Kind.	Pounds.	Value.
Butter	2,907,649	$544,592
Cheese	289,688	23,246

Fulton, La Prairie and Union are the only towns that have no creameries.

Other Crops.

Miscellaneous crops and products were raised as follows:

Kind.	Pounds.	Value.
Honey	9.432	$ 1,108
Sorghum, gallons	4,556	2,109
Beeswax	290	612
Wool	137,613	17.933

The Fruits Raised.

In fruits quite a showing is made, especially in the culture of apples and berries, as follows:

Kind.	Bushels.	Value.
Apples	45,069	$16,292
Grapes (pounds)	13,043	637
Berries	1,903	4,583

The Men Employed.

Nearly 5,000 men are employed on farms and in shops, etc., their pay aggregating nearly a million and a half dollars, as follows:

Work.	Number.	Wages
Manufacturing	2,816	$1,084,345
Farm work	1,700	310,579

THE ARTICLES MANUFACTURED.

What County Factories Made and the Value of Goods.

While the farmers were at work, the artisans were not idle. Rock county manufacturing interests employed 2816 men to whom $1,084,345 was paid and the goods made were valued at $3,395,966.

The value and in some cases the number of articles manufactured in the county, is told in the following table.

MANUFACTURING AND MERCANTILE.

Articles made	Number	Value
Real est. and machinery	.....	$4,303,838
Stock and fixtures	.....	$51,270
Lumber, etc	.....	40
Wagons, carriag's etc	1,339	97.408
Iron products	.....	1,226.493
Leather products	.....	439,192
Woolen products	90,000	89,900
Beer (barrels)	7,670	42,600
Wooden products	.....	276,23?
Cigars, etc	5,063,310	115,634
Flour (all kinds) bbls	112,481	467,203
Paper products	.....	46,100
Cotton goods yards	5,745,257	312,143
Drain tile	.....	25,000
Vinegar	.....	225
Other mf'g articles	.....	357,934

In this connection, some interesting facts are developed. For instance:

Janesville made all the woolen goods except $50,000 worth made at Beloit, and $1,700 worth at Clinton.

Janesville made all the cotton goods except $850 worth made at Clinton.

Beloit made all the paper except the $1,100 that was produced at Janesville.

Bradford produced all the vinegar.

Janesville made all the beer and all the drain tile.

Janesville made all the wooden articles except $96,432 worth made at Beloit, and $300 worth at Tiffany.

Tiffany made all the lumber, lath and shingles—$40 worth.

Janesville and Beloit Compared.

As Janesville and Beloit are the two largest cities in the county a comparison of the products, etc., of the two towns may be interesting. It will be found as follows:

Article.	Janesville.	Beloit.
Realty and machinery owned	$3,129,803	$ 936,605
Number men employed	1,108	1.220
Wages paid them	375,750	505,916
Stocks and fixtures	442,750	363,196
Wagons and carriages	81,048	8 200
Iron products	179,500	923,693
Leather products	224,000	268,492
Cigars and cigarettes	32,644	46,720
Flour of all kinds	241,000	126,203
Articles of wood	179,500	96,432
Woolen fabrics	38,500	50,000
Cotton fabrics	236,293	75,000
Drain tile	25,000	.....
Paper articles	1,100	45,000
Beer	42,600	.....
All other articles	320,550	26,399
Total	5,551,146	3,408,076
Less men employed	1,108	1,220
Total value of products,	$5,550,038	$3,406,856

Under the head of "other articles manufactured," Janesville's list is classified as follws, Beloit not being given in detail;

Articles	Value
Paper boxes	$ 12,000
Sodawater	12,000
Furniture and mattresses	500
Art stone	2,000
Tailoring	500
Clothing	50,000
Jewelry plating	5,000
Batting, etc	150,000
Hay tools	35,000
Bats and twine	18,500
Windmill and tanks	10,000
Invalid food	25,000
Number articles given	50
Total Janesville	$320,550
Total Beloit	26 393
Janesville's excess	$294,157

This table, like all the others, shows goods made at wholesale. The item of "soda water," for instance, means that made for wholesale trade and not that retailed in the drug store

Thus it will be seen that Beloit hires 112 more men than Janesville, and pays them $130,166 more than Janesville artisans earn.

Janesville's real estate and machinery is worth $2.193.198 more than Beloit's, while in stocks and fixtures Janesville's valuation exceeds Beloit's by $79 554.

Beloit's iron products are worth $744 193 more than Janesville's.

In miscellaneous products Janesville's list exceeds Beloit twelve fold. Other comparisons can be made by reference to the above table and the figures are worthy of study, as they will show the residents of both towns, which lines of trade need strengthening.

Population of the County.

Although the population of the county has been given several times, it may be of interest in this connection, and be of value, coupled with the other figures, for preservation and reference.

TELEPHONE WIRES WERE TANGLED UP

LINES ARE NOW IN WORKING ORDER AGAIN.

Manager Willitz Says the Wreck Was the Most Complete Since the Janesville Office Opened, and the Loss Will Aggregate $300—Building New Lines.

Janesville people can once more communicate with the outside world over the long distance telephone line, although the service until yesterday afternoon, had not been perfect since last Saturday. The wind and rain during the past week played hob with the wires and did fully $300 worth of damage to the local exchange. The wires were torn down in every direction and for a time the only cities to the north that could be reached were Whitewater and Edgerton, while the nearest to Chicago was Beloit. The local exchange is now connected with Milwaukee via four different routes add none were in working for a time.

Many Men at Work.

All extra men throughout the state as well as in the local exchange were pressed into service, but some days will be required before all the lines are in perfect working order. While many of the lines injured were those of the long distance service, Manager Willitz, of the local exchange, said that as long as the telephone company has had an office in Janesville, they had never experienced such a total wreck.

Workmen are now busy upon a line which will give Janesville direct communication with Watertown and the only town that will "cut in" is Whitewater. This eventually means getting Milwaukee direct in another route, where before the towns of Jefferson, Johnson's Creek, and Milton Junction all interfered with the working of that line. Plans are also mapped out for a direct line to Madison via Edgerton and Stoughton. Work will probably commence as soon as work picks up a little.

MILITIA OBSERVE MEMORIAL DAY

General King Issues an Order to The National Guard.

The following circular, urging the Wisconsin National Guard to take part in the Memorial day celebrations was issued by Adjutant General Charles King:

It is earnestly recommended that on Memorial day the Wisconsin National Guard take part in all public ceremonies in honor of the soldier dead; that it cooperate with the local posts of the Grand Army of the Republic, acting either as escort to those bodies or accepting such position in column as may be assigned it by the marshal of the day.

While the organized militia is entitled on parade to precedence over all other military bodies except the regular force of the United States, the citizen soldier of the day may well yield the place of honor to the surviving members of that veteran army of the nation to whose brave deeds we owe the maintenance of this republic to whose heroic dead we pay our willing tribute.

GOSSIP OF MILTON JUNCTION.

Improvements on The Kelly Building---Other Notes.

Milton Junction, May 18.—David Kelly and son are making a part of their building on the corner of Merchants' Row and Vernal avenue into a store from which to sell their groceries. Earl Kelly runs a grocery wagon through the country and this will be their headquarters. Elmer Barnes and wife of Fort Atkinson, Mr. Vankleek and family of Sun Prairie, Mrs. Anderson and Mrs. Peck of Iowa, were in town Sunday to attend the funeral of Mrs. Peck. Mrs. C. R. Hill is lying at the point of death. There is to be a birthday party for Rev. Stevens Monday night. Also one for Mrs. Rebecca Cottrill the same night. Quite a number of Junction people attended the funeral of Mrs. Peck at Robert Stockman's near Newville Sunday p. m. The burial was at the Junction. Mrs. Stone and Mrs. Ainsley Thorpe entertained a company from out of town the past week. Will Vanlone is at Ixiona, Jefferson County, for a few weeks canvassing for nursery stock. Mrs. Rev. G. W. Burdick and son Merton went to Stoughton Sunday for a couple of days visit with relatives there. Mr. Green, of Muckwanago, was in town Sunday. He came Saturday to bring a horse, Emily K, recently purchased by Stewart Chambers. This animal is a premium-taker at fairs the past few years and is considered something out of the ordinary. Mrs. Lucius Garthwaite, of Edgerton, visited relatives here this week. Mr. and Mrs. Holston, of Walworth, have been visiting their son Edward, of this place. Gilbert Thorpe died at five o'clock, Monday afternoon. The funeral arrangements have not yet been made.

Emerald Grove Gossip

Emerald Grove, May 19—Memorial day exercises will be held in the Congregational church at this place at 2 p. m. Saturday, May 30, to which the public are invited. Martial music and a good speaker have been provided. Saturday of this week will be given to cleaning up the cemetery grounds. Those wishing work done and cannot attend can get it done by notifying the sexton, W. A. Davis. Rain fell on Saturday, which will keep the dust in place for a few days. Corn planting will be completed this week except in a very few cases. All the early corn is up and is being cultivated. George Beesley is patronizing the butter factory. This is something that will cause the proprietor of the factory to purchase extra machinery. Modern Woodmen will meet Saturday evening this week. Gillies & Jones have a car of fine No. 1 salt at $1.10 per barrel.

IS YOUR DIGESTION POOR?

A Sample and Full Information Concerning the New Discovery for Dyspepsia Sent Free to Any Address.

A great deal of interest has been excited recently in the medical profession by the discovery of a new preparation, which has made many remarkable cures in cases of dyspepsia and indigestion.

This remedy is not a secret patent medicine, but is a scientific combination of pure pepsin and bismuth and fruit salts, pleasant to the taste, in tablet form, and sold by druggists under name of Stuart's Dyspepsia Tablets. Dr. Erskine who tested the tablets in many cases with marked success, states that they act entirely on the food taken into the stomach digesting it perfectly, no matter how weak the stomach may be; they have no action on the bowels and do not physic, being purely and simply a cure for dyspepsia and nothing else.

All physicians recommend them as being the safest, most sensible, most effective stomach remedy on the market.

No dieting or change of habits are required; eat all the wholesome food you care for and take a tablet at each meal, the food will be thoroughly digested, the body nourished, the stomach rested; that's the whole secret of curing indigestion and the whole secret of the success of Stuart's Dyspepsia Tablets; the reason why they have taken the place of after-dinner pills, "stomach bitters," "laxatives" and "tonics."

Stuart's Dyspepsia Tablets are sold by druggists at 50 cts. per package, or he will order them for you if you ask him, as all druggists sell them.

A small sample package of the tablets will be sent free to any address if you will write to the Stuart Co., Marshall, Mich. Also circulars and testimonials.

THIS DAY IN HISTORY.

1506—Christopher Columbus died at Valladolid, Spain, aged about 70; birth date uncertain.
1772—Dorothy Payne, famous as Dolly Madison, born in North Carolina; married James Madison 1794; died 1849. Dorothy Payne was born of English parentage and was brought up as a Quaker. At the age of 19 she married John Todd, a lawyer and a member of the Society of Friends. The yellow fever pestilence of 1793 left Mrs. Todd a widow, and the year following she married Madison, then a member of congress. As mistress of the White House from 1809 to 1817 Mrs. Madison became celebrated on account of her beauty and accomplishments.
1834—Lafayette died in Paris; born 1757.
1890—Extraordinary rain over all the Atlantic states, especially from the Hudson to the Potomac.
1894—Edmund Yates, London journalist and author, died in London; born 1831.

Nikola Tesla's Honors.

Although still so young a man, Nikola Tesla is beginning to find the honors shower thickly upon him. He has already been made, within the last year, a doctor by Columbia College, and an M. A. by Yale, while one of the leading universities of the far west has recently invited him to accept one of its diplomas. A couple of years ago he received the rare order of St. Sava from the King of Servia, and last week news reached him officially that the Order of the Eagle had been conferred upon him by the Prince of Montenegro, who may be said to represent the race from which Tesla springs. His own people are very proud of this young genius, even though he has become an American citizen, and not long ago the unique honor was bestowed upon him by the Servian government department of posts and telegraphs, of printing a special Tesla postage stamp. When Mr Tesla went home to his native land four or five years ago, each of the six morning newspapers in Belgrade saluted his arrival the same day with an original poem. The modest inventor appreciates these manifestations deeply, but he says laughingly to his friends that he "would go home oftener if there was less of it."

A Story Told in England.

One of the most valuable flocks of Southdown sheep in the United States is the property of Mr. Mansan Migg, the beet-root sugar magnate, says the London Tit-Bits. A peculiar fact in connection with the flock is that it is looked after, not by sheep dogs, but by six trained Spanish game cocks. They are armed each morning with spurs, and have so fierce a way of attacking any sheep that tries to run away or will not be driven that the animals are now thoroughly afraid of the birds and obey their directions perfectly. Mr. Migg's daughter brought the birds from the Canary Islands.

Janesville had four winners in the "Fathers and Sons" prize story competition run by a Chicago daily. Miss May Henderson won $25, Mrs. C. C Calkins $10 Miss Jennie Peterson $10 and Miss Marguerite Samuels $5.

Lagerman-Schwartz.

At eight o'clock this morning the words were spoken by the Rev. R. J. Roche, that united as husband and wife, Miss Maggie Schwartz and George Lagerman. The ceremony was performed at St. Mary's church in the presence of a large number of friends. The bride formerly resided in Spring Green, while the groom is a mechanic in the employ of the Northwestern road in this city. The happy couple left today for Spring Green and Wauseka and on their return will reside in this city.

SEASONABLE SUGGESTIONS.

Warm weather brings forcibly to mind the question of cool footwear. As a matter of fact women wear more comfortable shoes in the heated months than men. The reason probably is because Oxfords are so pretty and so stylish and can be procured at so small a cost. With almost a bewildering assortment of Oxfords it's not to be wondered that we have a large trade on these cool shoes.

$1.00 buys an elegant black or tan Oxford, point toe.

$1.25 buys one a little finer and good enough for anyone.

$1.50 This is where we are particularly strong. We show about a dozen different styles in tan and black at this price. All the newest styles in Turns and McKays sewed.

$2.00 If you are looking for a good investment in shoe leather, and $2.00 is the amount you wish to invest, just take a look at our $2.00 Oxfords; all the new shades of tans and the nobbiest of blacks. We take no back seat when it comes to $2.00 oxfords.

$2.50 and $3.00 Some think that a large price to pay for an Oxford but it buys just as fine an Oxford as can be made by the best shoemaker in the land.

We are showing one Oxford particularly in a dark tan made on the extreme needle toe with a silk top which is the handsomest shoe we have ever shown. It is made from a new pattern, the cloth being one piece. No seam in front, which makes a very nobby effect on the foot. Come in and see it. If you are looking for new and **stylish** Oxfords we have them. We want your trade on these goods. All we ask of you is to inspect our stock.

IF IT IS NEW WE ARE SURE TO HAVE IT.

M'DANIELS INSANE THE DOCTORS SAY

PHYSICIANS EXAMINE A WELL KNOWN FARMER.

Sat Up All Night With a Revolver Waiting For the People That He Thought Were Coming to Take His Life—Wife Compelled to Disarm Him.

Louis McDaniels, a well-known La Prairie farmer, will no longer sit on guard at his bedroom window, revolver in hand, waiting for a chance to shoot the men whom he feared would take his life if he slept.

A commission of doctors today decided that McDaniels was insane, and that the hallucination under which he labored, was born of a disordered brain.

He was brought to Janesville and examined this afternoon by a commission of physicians, composed of Drs. W. H. Judd, J. B. Whiting and James Mills, relations thinking him insane. McDaniels resides ten miles south of this city near Shopiere and for the past year has been acting rather queer. Several times he had been examined by physicians, but they could not agree. During the past week, however, his wife complained to the neighbors, that she was in constant fear of her life and that she had on several occasions taken a revolver away from her husband, when he was flourishing the weapon right and left. She finally became thoroughly alarmed and decided that some action must be taken.

McDaniels imagined that some one had a ladder against his window at night and that they were trying to gain an entrance for the purpose of killing him. The thought kept him awake nights, and with his revolver in hand he would wait for the supposed murderer to come.

McDaniels is a young man but twenty-seven years of age and married the only daughter of Mr. and Mrs. S. H. Joiner, who reside near Emerald Grove.

The commission of physicians decided that McDaniels was insane and he will be taken to Mendota for treatmeut. The case is a sad one and calls forth much sympathy.

CANDIDATES ARE SHOWING UP.

The Contest For Sheriff Appleby's Place Will Be Lively.

County politics are showing more life. Candidates are bobbing up, and there are likely to be several sharp contests. The strife for Sheriff Appleby's official shoes will be fiercest. Janesville has two candidates who are backed by many friends, and have the advantage of experience in preceding campaigns. Chief of Police T. L. Acheson and L. M. Nelson are formally in the field and are lining up their forces with a feeling that Janesville's chance ought to be better now that Beloit has been molified.

Word comes from Evansville that a vigorous campaign is being made for C. C. Brink, for sheriff. Mr. Brink is city marshal of Evansville and his supporters declare that his standing in the northern assembly district has been made better by the hearty support Edgerton is giving A. S. Flagg for assemblyman. The belief is expressed that Edgerton will not expect to dictate as to both assemblyman and sheriff.

Royal P. Maltpress of Edgerton, is making a sharp fight for the shrievalty, none the less. The outcome of the assembly district contest between Flagg and P. C. Wilder of Evansville, will play a part in the campaign, but the Edgerton deputy is not waiting for this to be decided before he takes the field.

DONNELLY TO TAKE KEELEY CURE.

Ox Blood Tans.

THIRTY-FIVE made-to-order suits of clothes arrived in the city this week, as the result of a recent visit of a traveling salesman.

EDDY BYRON, aged five years, fell from a milk wagon yesterday and broke a bone in his hand. Dr. E. F. Woods attended him.

WE are selling many hats at our sale. It lasts this week. $1.25 buys a good one, $2.50 buys a hat worth as high as $4. The Fair.

J. M. BOSTWICK & Sons are showing Jersey ribbed, knee length drawers for women at 25 cents, although some stores are selling them at 35 cents a pair.

WE are selling spring wraps worth from $2 to $3 for 79 cents. Those worth from $3 to $5 for $1.67. Those worth $5 to $7 for $3.19. Those from $7 to $10 for $6.98. Great bargains in them. T. P. Burns.

HAVE you thought about getting pretty tie bows to wear with your shirt waists? Well, you can find in our stock several hundred new ones and at the popular price of 25 cents each. Bort, Bailey & Co.

MODEST loveliness! What fitter words than those can be used to describe the pearl. A. F. Hall & Co., "the reliable jewelers" have a fine lot of pearls artistically mounted in rings, pendants, brooches and scarf pins.

CAPTAIN PLINY NOLCROSS, Superintendent Mark Cummins of the street railway company, Foreman Wallace of the Bower City Light & Power company, and Chief Engineer Spencer took a ride about town in the patrol wagon today, looking over the electric wiring, etc.

J. M. BOSTWICK & Sons are offering a Richelieu ribbed, fine lisle thread vest, silk tape trimmed, low square neck, sleeveless, white and ecru at 25 cents. This vest was made to sell at $3.25 a dozen wholesale. A combination of circumstances enabled them to buy them at a low figure and the people are getting the benefit.

MRS. A. P. LOVEJOY entertained delightfully last evening, in honor of her guest, Miss Hunt, of Maine, the occasion being an excursion up the river on the steamer Columbia. Luncheon was served at Crystal Springs park, and the party returned at 9 o'clock, and the event was a rarely pleasurable one for all concerned.

THE Woman's Auxiliary of the Y. M. C. A. will hold a special meeting on Thursday afternoon at 3 o'clock in the new building. Arrangements will be made at this meeting for entertaining the Modern Woodmen, and all ladies interested in the work of the association are earnestly requested to be present. By order of Mrs C. D. Child, chairman committee.

STREET CAR STRIKER GETS 'BUSSES HERE

JANESVILLE CONVEYANCES SENT TO MILWAUKEE.

P. Abraham, One of the Men Who Quit Came Here In Search of Vehicles to Extend the Opposition Line—Got Four Carryalls—Says They Will Win.

Milwaukee people who sympathize with the strikers, and do not want to ride on the cars for that reason can ride in wagonettes from Janesville.

Four Bower City busses were sent to the Cream City this afternoon, to be used in lines run in opposition to the trolley lines.

The conveyances were secured this morning by P. Abraham, one of the strikers, who came to this city to see what vehicles he could secure. He made a thorough canvass of the town, and seemed pleased with his success. He was a young man of pleasing address and seemingly very intelligent. He wore the uniform of the railway company, and was a conductor before the strike. He talked quite freely of the trouble and predicted the success of the strike.

People Favor Strikers.

"Public sentiment is on our side," he said to a Gazette reporter, "so we cannot loose. The people of the city are against the railroad company, and with us. They will walk for blocks or patronize the 'busses, but they won't ride on the street cars. They will stand in the rain for hours before they will ride on the cars. The omnibuses cannot care for all the people who want to ride. We could not find carryalls, etc., enough to accommodate the people, and so I was sent here to see what conveyances I could find. I have already secured four which will be sent to Milwaukee this afternoon, and I may secure more yet.

"The more cars the company run, the larger their expenses are, while the patronage is very small. Public sentiment is a hard thing for a company to fight, and sentiment is against them. We will surely win."

Representatives of the strikers have visited Rockford and other cities round about Janesville in search of carryalls and next week they will make on attempt to secure horses to haul them.

THE TAX SALE HELD YESTERDAY

Many Speculators Were at County Treasurer Nye's Office.

County Treasurer Nye's office, at the Court House, was a busy place yesterday, the attraction being the annual state and county tax sale. A good sized crowd was on hand, and included about the same old line of "speculators." The number of sales made was about the same as in previous years.

AGED MR. KINNEY DID NOT SUICIDE

EDGERTON MAN'S DEATH OCCURRED TODAY.

Bullet Intended For a Turtle Struck Him In the Wrist, Causing Him to Drop the Shot Gun, Discharging that Weapon, Thus Tearing His Heel.

The bullet that aged Schyler Kinney intended for a turtle was the one that caused his own death.

Mr. Kinney was the man who was found by the railroad track near Edgerton, yesterday. His death occurred at 7 o'clock this morning, and the funeral will be held tomorrow afternoon.

Today's developments showed that the surmises of some that Kinney shot himself with suicidal intent, were unfounded. It has been learned that Kinney's story was the correct one. He was out hunting and seeing a turtle in the river, drew his revolver to shoot at it. He was carrying the shot gun over his shoulder, and taking aim at the turtle, as he supposed, he pulled the trigger. The old gentleman's vision was not good, however, and instead of striking the turtle the ball took effect in his left wrist, tearing the hand and wrist in a terrible manner. The injury to his hand caused him to let go of the shot gun, and the weapon fell to the ground behind him. As the gun struck the ground the hammer came in contact with something that discharged the weapon, the charge of shot tearing away Kinney's heel.

At first it was thought that amputating the foot might save Kinney's life, but the operation was afterwards decided to be impractical, and the idea was abandoned.

Kinney had a son, Lon Kinney in this city, who was today notified of his father's death.

COLORADO'S GOLD FEVER.

Three Mining Exchanges—Fortunes Made and Lost in a Day.

Colorado is astir over a great speculative wave, the result of the discovery of gold in Cripple Creek. Colorado Springs already boasts of three mining exchanges, and excitement is at fever heat, says the New York Herald. All three exchanges are so busy with actual orders that one cannot cross the threshold without fighting for position. Several thousand persons engage in nothing else from morning to night. A hundred or two hundred thousand shares are not uncommon for one broker to hurl at another, while for the day the aggregate of business frequently soars to 2,000,000 shares.

The miner who relied on signs for the presence of ore around Cripple Creek invariably "got left," while the farmer and cowboy, with only a stock of confidence and blind luck, stumbled on the bonanzas that have become famous throughout the world. W. S. Stratton, a carpenter, three years ago working for $2 a day, is now the central figure of the west with his Independence, that pays him at the rate of $150,000 a month, without referring to the adjoining properties that are neglected until the time when the owner finds some way of spending the wealth that has been lavished upon him. Then there are James Doyle and James F. Burns of the Portland, who are reaping the fruits of industry in possession of a mine that has been appraised at $6,000,000. Two years ago both men were operating drills and shovels for $3 a day. These are the notable men in the district who inspire others with hope of rivaling their glories from the same source. Such careers cast a halo of romance around the occupation of an ordinary miner and the incentive is so great that the denizens of the Colorado city are just beginning to realize the possibilities of the new field for speculation.

Auriferous Sand in His Craw.

People are now digging for gold in Franklin county. Several days ago Charles McCune found some specks of gold in the craw of a turkey which he had won at a raffle. He sent the gold to Prof. Orton, the state geologist, who pronounced it gold, but said that some of the sand from which the gold came should have been sent along in order that some conclusion might be formed as to the presence of more of the metal in the same bed. The rest of the contents of the craw, however, had been thrown away and the sand could not be furnished. The gobbler did his feeding along two small streams which unite at the Canal Winchester road.—Cincinnati Tribune.

Saw His First Train.

A country boy who was brought up in a remote region of Scotland had occasion to accompany his father to a village near which a branch line of railway passes. The morning after his arrival, when sauntering in the garden behind the house in which they were staying, he beheld with wondering eyes a train go by. For a moment he stood staring at it with astonishment and then, running into the house, he said: "Father, father, come oot! There's a smiddy ran off wi' a row o' houses, an' its awa' doon by the back o' the town."

SUMMER STYLES.

Capes With Bright Linings—Silk Petticoats to Match the Gown.

The Marie Antoinette fichu, crossed in front and tied behind, is in vogue this summer again. It is made of silk like the gown, of tulle, of white gauze or of mousseline de soie, and is trimmed with plaitings, ruffles and lace.

Capes for warm weather wear are most elaborately trimmed. Linings of vivid color are liked, and to be quite in fashion the hat must have a touch of the same color that lines the cape. Bright cherry linings in black capes and similar striking combinations are much seen.

Silk petticoats matching the gown in color are now worn. This necessitates a different petticoat to go with every costume. White muslin and cambric petticoats, embroidered and trimmed with lace, will accompany very light gowns.

The close fitting Louis Quinze coat, open in front to show a vest with a frill of lace

VISITING COSTUME.

and a jabot, is very much worn now. The revers and cuffs are of silk different from the body of the coat.

Mohairs and similar fabrics, pliable but firm and brilliant, are in great favor. Not only are they seen in gray, beige, sable and neutral tones, but in the bright shades of rose, mauve, blue, green, etc., with changeable effects. The solid colors are trimmed with ornamental buttons or bright ribbons. Much white is also employed as a trimming, vest, belt and revers being often white, beside the innumerable accessories of gauze, mousseline de soie, tulle, lace and embroidery.

The vest, which is the indispensable complement of the Louis Quinze coat, submits to great variations. It is by means of the vest that new effects are obtained. It is cut away at the neck in many styles to show a guimpe or plastron of embroidery, lace or thin plaited material, with a high collar.

The costume shown in the sketch has a godet skirt of black satin, entirely plain. The close bodice of ivory satin has a sort of bolero of heavy black guipure embroidered with colored silks. The collar is of ivory surah, the cravat of old point. The plain sleeves are of ivory satin. The toque is of ivory and pink changeable satin, and is trimmed with pink flowers.

JUDIC CHOLLET.

MATERIALS AND TRIMMINGS.

Broche and Taffeta, Flowered and Striped. Lawns and Grasscloth.

Light broche silks and taffetas compose many of the most charming models for summer toilets. The taffetas are particularly beautiful, being of plain and changeable colors, flowered and striped. Gauze, mousseline de soie, lace and embroidery are used for trimming them, with bows and steel or jeweled buttons. Foulard gowns are also seen.

Among sheer goods for summer costumes are plain and satin striped lawns, ecru grasscloth, with white embroidered patterns, and muslins in immense variety. These last are checked, dotted, flowered and striped, and there are even Scotch muslins shown, the ground being white

SUMMER TOILET.

and the colors very delicate. Plaid batistes are also seen, and the two compose very elegant toilets, worn over white silk.

It is necessary to be particularly careful about the shoes that are worn with thin silk or muslin gowns. Thick or shabby footwear shows with most disastrous effect under delicate costumes when with a gown of heavy dark goods it might pass unnoticed.

The long Marie Antoinette fichus are worn more and more and make a very pretty finish for summer gowns.

There are innumerable collars now offered, all more or less elaborate. Some of them are of embroidered grasscloth, others of guipure and lace, still others of satin or spangled gauze and lace or chiffon. They are all fluffy in effect and add much to the attractiveness of the costume.

The costume of which an illustration is given has a godet skirt of silver gray taffeta, with a darker gray and white design. Two choux of old rose velvet adorn the front of the skirt. The bodice of white mousseline de soie is draped and crossed and has a bolero of point de venise and a plastron of the same lace. The belt and strap across the bosom, as well as the shoulder knots, are of old rose velvet. The collar is of mousseline de soie, and the sleeves also, the latter having lengthwise applications of point de venise.

JUDIC CHOLLET.

RATS STOLE THE EGGS.

Clever Manner in Which the Rascals Got Away With Their Booty.

Mount Morris Special to Buffalo Express: Young Lewis Johnson has been missing a good many hens' eggs lately. Yesterday he detected the thief, but he did not catch him. It was a large gray rat. As soon as Lewis heard the hen cackle he ran out to the barn and found the rat carrying off the egg, still warm. The way he hit it was curious. Lying on his back, the rat was clasping the egg tightly with his four legs, and another rat was draging him off by the tail. The rat that was supplying the motive power was the first to notice the approach of Lewis—his companion in mischief was too busy balancing the egg to notice anything. When he saw Lewis the rat did not give up the attempt. On the contrary, he redoubled his efforts to drag his load out of harm's way. With his pal's tail tightly gripped in his teeth, he yanked and tugged away toward a hole in the wall under the calf's feeding trough. Meanwhile his companion, the receiver of the stolen goods, who, in the circumstances, was quite as bad as the thief, kept squealing quite lustily. Probably the cinch which his comrade's teeth had on his tail was painful. But he was game. He hung on to the egg like a good fellow. The other rat would drag him around every obstruction with the nicest intelligence, never once losing his grip. He gripped the tail; the owner of the tail gripped the egg. Lewis opened his eyes to their fullest extent and stared in astonishment. Then he got a club. By this time the thieves were very nearly off with their booty. Throwing his club, Lewis scared them off on the very point of success. He recovered the egg, but the thieves got away.

Putting the egg in his pocket, he went to the hen house and secured a china egg, which he placed in the nest in the manger. Then he hid behind the strawstack and awaited developments. Pretty soon two sniffing noses appeared, then a gray body with hair ruffled the wrong way on its back. The rats went to the nest again and toted the china egg out on the ground. But they didn't like the looks of it. They would carry it a short distance and then stop and sniff it, bunting it about with their noses. After some moments of these football tactics the carrier rat tried to get hold of the egg, but he could not accomplish it. It was so smooth and polished and slippery that it eluded him every time he put his paws on it. Then they tried to bunt it along, but this was not a success. Every time they bunted it away it would go in the wrong direction. Finally the locomotive rat got angry and bunted the other one. This precipitated a small rat riot, which Lewis took advantage of to try and get between the rats and the hole under the trough. But he stubbed his toe in his haste, and forgetting all about the egg in his pocket, smashed it. The rats scampered off and Lewis hurried sorrowfully to the house and tried to tell his mother about the strange sight in the barnyard, but she thought he was fibbing to excuse the breaking of the egg in his pocket, and gave him a good licking, accompanied by an admonition to always tell the truth.

There are red rings under Lewis' eyes today, and red welts on other parts of him, but he sticks to the story, and he and his father have resolved themselves into a committee of investigation into the rat question, and when they get their proofs they will confront Lewis' mother and secure a vindication for Lewis.

Herbert Spencer and the Blackie Family.

One afternoon Mrs. Blackie and the writer, sitting on a garden seat, noted a weary wayfarer with dusty boots open the little gate and climb up the footpath. He wore a soft wide-awake and gray clothes and displayed no badge of saintship or lantern of philosophy. "A dominie for Pro.," said Mrs. Blackie. The professor's voice was ringing out from the open window of his turret study, laden with soft Gaelic gutturals. It ceased and the dominie stood under the porch. A few minutes passed and Bella came flying to the garden seat. "Please, mum, it's Mr. Herbert Spencer in the drawing room and the professor is not to be found." He had closed his book and gone by the back door to breathe on the "sublime heights" before dinner.

Trembling with responsibility we faced the illustrious visitor, who restored our composure by abusing the highlands, libeling the inn-keepers and accusing our sex of bribing porters with threepenny bits and so compassing every railway disaster ever recorded. With some indignation we flung our gauntlet in the face of the "father of modern philosophy," and it is to be feared that he fled from such unwonted treatment. "This has been a very stormy interview," he said and took his leave. And just afterward, returning from his walk, the professor missed his visit.—"John Stuart Blackie," by A. M. Stoddard.

Paderewski and the Banjo.

The other day, when Paderewski was dining at a hotel, a fine nickel plated banjo was sent in by a banjo player, with the request that the great piano player should write a short musical sentiment on the sheepskin head. Paderewski complied with the request, and this is the sentiment to which he attached his signature: "I have not the pleasure of being a performer on this beautiful instrument; am only a piano player." Now the banjo player is asking his friends if the virtuoso was "jollying" him.

Effects of a Sneeze.

A rajah at one time turned back his army from the gates of a besieged city because one of his foot-runners chanced to sneeze just as he had decided to give the command to attack. A Brahman priest was consulted, and a special time appointed by him to renew the siege before it was deemed a promising undertaking

TWO TEMPTING RECIPES.

A Confection of Figs and a Celebrated Rule for Making Chocolate.

Take dry figs. The choicest thin-skinned ones are not necessary for this purpose. Wash and cut them carefully to be sure no imperfections are left. Pour boiling water on them and let them simmer until the skins are quite tender. Then remove the figs and add sugar sufficient to make a rich syrup of the water in which they were boiled, and lemon or grape juice to give color and acidity. Pour this on the figs and set them away to cool.

When William M. Evarts occupied a seat in the United States senate and a fine house, with his family, in Washington, the chocolate of their afternoon receptions became famous. The recipe for it was as follows: One quart milk, one cake chocolate, essence of vanilla Grate the chocolate very fine, mix with a teaspoonful of hot water and rub smooth. Allow the milk to come to a boil, put in the chocolate and boil about five minutes, or until of desired thickness. After removing it from the fire season with the essence of vanilla according to taste. Boil in a farina kettle. The chocolate should then be poured into dainty cups while still in the kitchen and served quickly steaming hot.

Fill the cups two-thirds full with the delicious brown mixture and add thick, beaten cream. This addition constitutes the making of the famous Vienna chocolate introduced at the centennial. If only one square of chocolate is required, draw a line across the two squares at the end dividing them in half. With a sharp knife shave off the chocolate until you come to the line, which saves waste of time and material.

Young mothers dread the summer months on account of the great mortality among children, caused by bowel troubles. Perfect safety may be assured those who keep on hand De Witt's Colic and Cholera Cure, and administer it promptly. For cramps, bilious colic, dysentery and diarrhœa, it affords instant relief. C. D. The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, sallowness, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. Sold by druggists.
